

The workshop will take place at the School of Building Construction of Barcelona (EPSEB) on the Universitat Politècnica de Catalunya (UPC) Campus.

Metro: Zona Universitaria (L3-Green Line)

In “Zona Universitaria” go out by the exit “Avda Gregorio Marañón”, and the building is just over the road to your right. The name on the facade is: “Escola Politécnica Superior de l’Edificació de Barcelona”.

Transport from the airport:

- By taxi: the journey can take about 30 min to the University, and about 50 min to the city center, depending on the traffic (price about 20-30€).
- By train: There is a train from the Airport to the city center (journey time 20 min, trains every 30 min). You can get off at “Catalunya” or “Sants Estació”. If you are coming to the University, then get off at “Sants Estació” and take the metro (green line) to Zona Universitaria (20 min).

Note: In the Airport, the train station is located in Terminal T2. You will probably arrive at Terminal T1, but there is a bus that connects Terminal T1 with the train station.

- By bus: There is a bus, called “Aerobus” from the Airport to the city center (every 12 minutes). You can catch the Aerobus from outside both Terminal 1 or Terminal 2. You can get off either at “Espanya” or “Catalunya”. If you are coming to the University, it is better if you get off at Espanya, and there take the green line to Zona Universitaria.
